Annexure

The below are the list of sections that you can refer to :

S. No	Section	Description
1	Onboarding and Login page	The onboarding process provides introductory information. The login process provides options for users to log in using UAE Pass and Emaratax credentials.
2	Home page and sections	This section ensures that users can efficiently navigate the application's key features from the home page such as searching for suppliers, changing the application language, contact information for the Federal Tax Authority, consulting personal information and logging out.
3	Create project	This section outlines the process of adding a new construction project within the application. It involves gathering project details and uploading relevant documents.
4	Add invoice	This section outlines how users can add invoices to the project, including document upload, OCR extraction, field validation, and integration points for TRN validation
5	Refund request	This section details the user interactions and functionality of the "Refund Request", where the user is required to provide information and documents for the refund request in multiple phases. The user can also attach optional support documents.
6	Edit project	The "Edit Project" functionality allows the user to make modifications to project-specific data, including the construction permit information.
7	Submit refund request	This section details the process of submitting a VAT refund request within the application. After the user has filled all the necessary information and documents related to their refund request, they can proceed with the submission.
8	Submission Result	This section outlines the process that occurs immediately after a user submits a VAT refund request. Upon submission, the user is directed to a result screen that provides information about the submission status.
9	Project Barcode	This section is to allow the user to access and share a unique project barcode for generating invoices with integrated suppliers.
10	Project status details	This section outlines the various status conditions that a project can have and the associated user interactions within the "Project Details" screen/card.

INTRODUCTION

This document is designed to assist users in navigating and utilizing the application effectively. It will guide you through the following key processes:

1. **Onboarding and Login:** Learn how to onboard into the application and log in using UAE PASS and EMARATAX credentials.
2. **Easy Navigation:** Understand how to navigate seamlessly from the home page to other sections and functionalities within the app.
3. **Project Management:** Discover how to create and edit projects with step-by-step instructions for each stage.
4. **Refund Requests:** Follow detailed guidance on submitting refund requests, including all the necessary sub-steps to complete the process.
5. **Barcode Access:** Learn how to access and generate the barcode for each project.
6. **Project Status Tracking:** Track your projects from their creation through to receiving feedback from the FTA.

By following this guide, you will be equipped to make full use of the application's features efficiently and effectively.

FEATURE 1: ONBOARDING

DISPLAY SPLASH SCREEN AND LANGUAGE SELECTION

1. Launch the application:

Open the mobile application on your device.

2. Splash screen display:

Upon launching, the splash screen will appear, displaying the logos of the Federal Tax Authority and Maskan.

3. Languageselection (First-time users):

If this is your first time using the app, the splash screen will be shown in the device's default language.

You will be prompted to select your preferred language: **English** or **عربي**.

4. Save language preference:

The system will automatically save your language choice for future use, ensuring a consistent experience every time you open the app.

5. Transition to onboarding screens (First-time users) :

After selecting your language, you will be directed to the onboarding screens, which will guide you through the initial setup process.

6. Regular Splash screen:

For subsequent launches, the splash screen will briefly display for 3 seconds, creating a welcoming and branded experience before transitioning to the main screen.

7. Automatic transition:

After the splash screen is displayed, the system will automatically move to the main landing page of the app in the language you selected.

ONBOARDING AND LOGIN PAGE

1. Launch the application

- Open the Maskan Smart App on your mobile device.
- The splash screen will display briefly and transition to the onboarding screen.

2. Onboarding screens

- First Time Use: After selecting your preferred language, you will be directed to the onboarding screens.
- The onboarding phase consists of three screens that provide introductory information about the app's services.

3. Navigating onboarding screens

- **Next button:**  Click "Next" to move to the next onboarding screen.
- **Skip button:**  Click "Skip" to bypass the onboarding screens and navigate directly to the login page.
- **Get started button:** On the last onboarding screen, click "Get Started" to proceed to the login page.

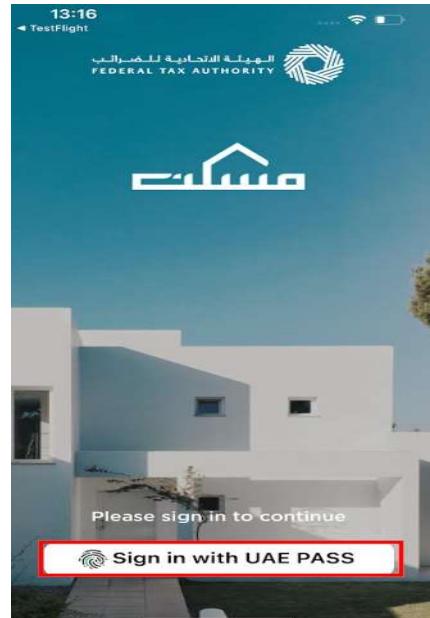

4. Returning users

- If you are not a first-time user, after the splash screen, you will be directed straight to the login screen.

5. Login screen options

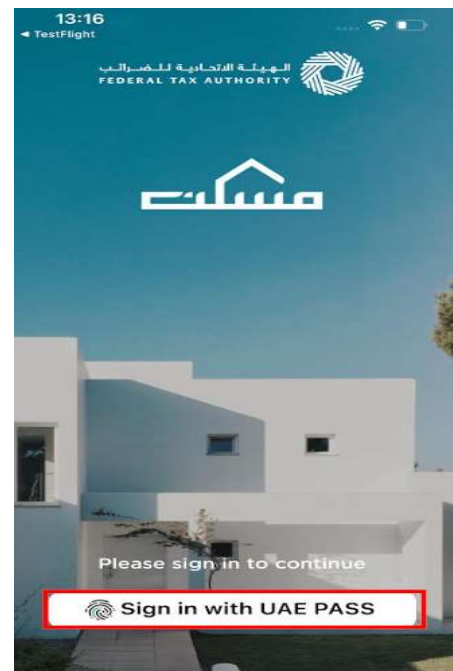

- **Login with UAE Pass:** Select this option to authenticate using your UAE Pass credentials.

FEATURE 2: LOGIN AND AUTHENTICATION

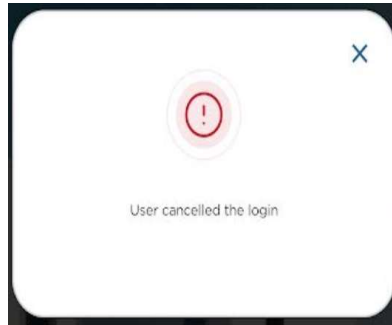

AUTOMATIC LINKING WITHOUT UAE PASS CODE VALIDATION

1. Open the application.
2. Select the "Login with UAE Pass" option.

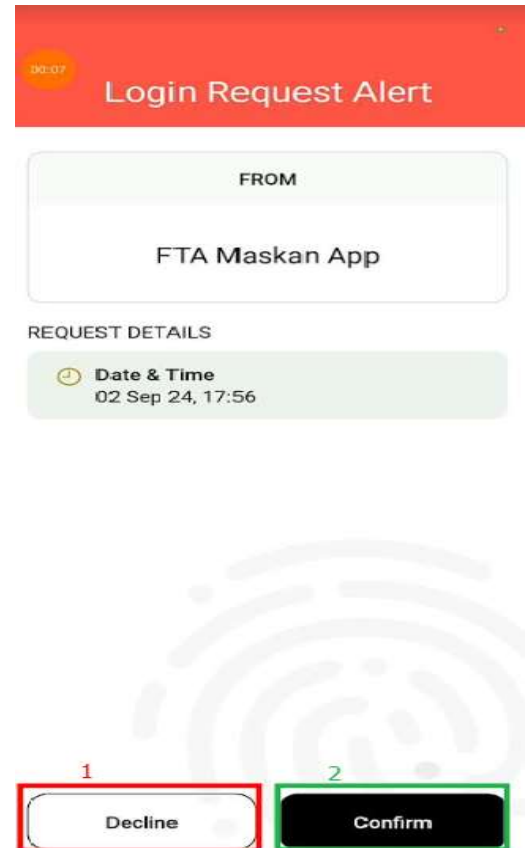

3. Click on “Decline” (1) if you want to cancel the login, and a pop-up will appear to confirm that the login has been cancelled:

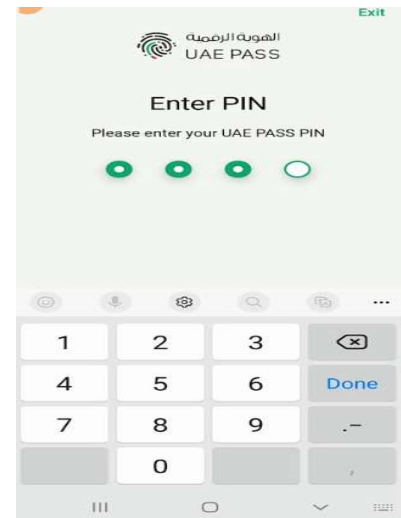

4. If you want to continue the login process ,click on “Confirm” (2).

5. Once you have clicked on ‘Confirm’, a new screen will be displayed for entering the Pin code

6. Once you have entered your Pin code, there will be a short waiting period and you will then be directed to your account home page

AUTOMATIC LINKING WITH UAE PASS CODE CONFIRMATION

1. Open the application.
2. Select the "Login with UAE Pass" option.

3- Enter the email address (1) and click on “Login” (2)

1 Login to UAE PASS

FEATURE 3: HOME AND MAIN SCREENS OF THE APP

HOME PAGE AND SECTIONS

1. Access the Home Page:

- After successfully logging in, you will be directed to the home page.

2. Navigate through the app:

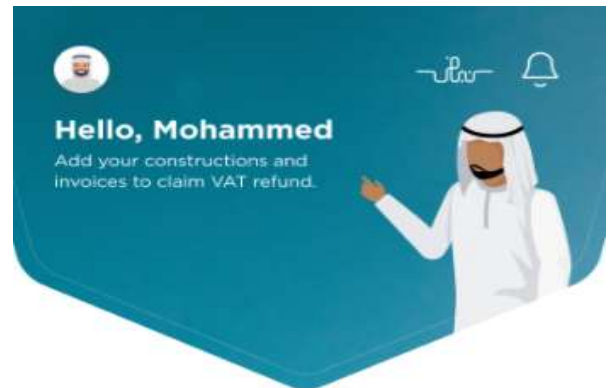

- The home page features a navigation bar at the bottom, with options to access different sections:

"Home":(1) Returns you to the main landing page.

"Projects":(2) Allows you to view and manage your ongoing projects.

"Suppliers":(3) Provides access to supplier-related information.

"More" Menu:(4) Offers additional app functionalities and options.

YOUR PROJECTS

3. View notifications:(2)

- Tap the **notification bell icon** to view your in-app notifications.

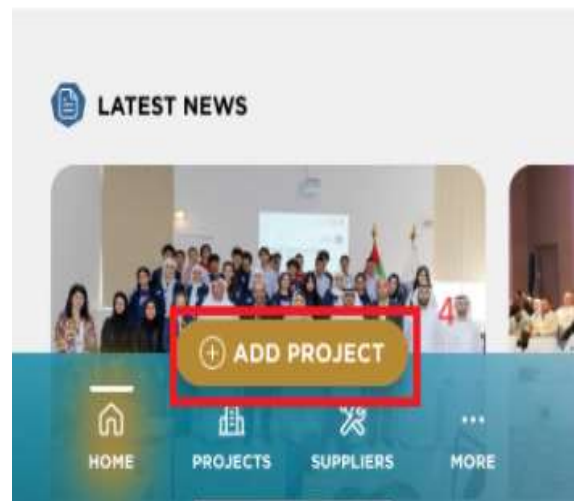

4. Submit feedback:(1)

- Use the **Customer Pulse icon** to submit feedback or assessments about your experience.

5. Start a new Project:

- If you haven't initiated any projects, a button to "**Add New Project**"(3) will be displayed on the home page.
- You can also use this button "**Add New Project**"(4) to start a new project.
- If you have initiated any projects, click on "**Add New Project**" button (4) to start a new project.

YOUR PROJECTS

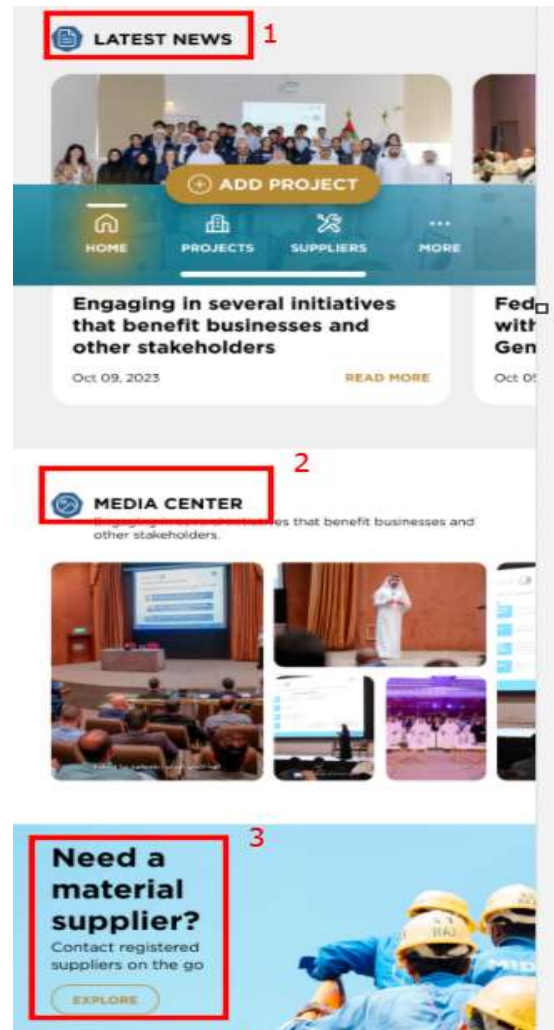

6. Scroll Through the Main Content Area:

- The main content area of the home page is scrollable, allowing you to access various sections:

"Latest News":(1) Displays updates and important information.

"Media Center":(2) Showcases photos and media content.

"Need a material supplier?": (3) Directs you to the supplier screen to discover integrated suppliers.

PROJECTS SCREEN

1. Navigate to Projects:

From the home page or any screen with a navigation bar, select the "Projects" option.

The system directs you to the "Projects" screen.

2. View Project List:

On the "Projects" screen, you'll see a list of all your projects, each represented by a project card.

The card displays essential details like the project name and its current status.

3. Scroll through projects:

Scroll through the project cards to view all your projects.

4. Access Specific Project Details:

Click on the project card of the specific project you wish to view or manage.

5. **Navigate to OtherSections:**

Use the navigation bar at the bottom to switch between different sections like "Home," "Suppliers," "More Menu," or return to the "Projects" screen as needed.

6. **Add a new project:** Click on “Add new project” to create a new project.

SUPPLIERS

1. Navigate to the Suppliers Screen:(1)

Access the "Suppliers" screen from the main menu.

2. View Supplier Locations on the Map:(2)

The screen displays a map with various supplier locations marked.

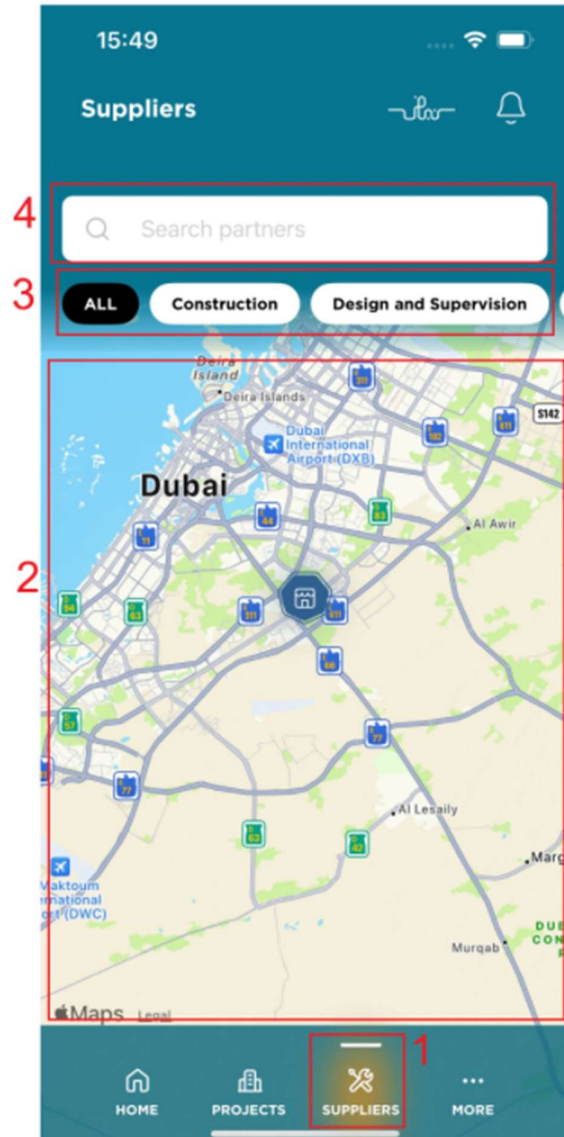

3. Interact with the Map:

Zoom in, zoom out, and pan around the map to explore different supplier locations.

4. Apply Filters to Suppliers:(4)

Use the filter options to display suppliers based on specific material categories:

- Structural materials
- Roofing materials
- Interior wall materials
- Flooring materials
- Paint and finishes
- Windows and doors
- Cabinetry and countertops
- Plumbing materials
- Electrical supplies
- Hardware and fixtures
- Exterior finishing materials

5. Search suppliers (5): allows users to quickly find suppliers by entering relevant search criteria.

6. View Supplier Details:

Click on a supplier's location on the map.

The application retrieves and displays detailed information, including:

- Supplier name
- Address
- Contact information
- Working hours

MORE LIST

1. Access the more menu:

Tap the "More" icon located in the navigation bar at the bottom of the screen.

2. View available options:

The "More Menu" displays a list of menu items:

User information: (1) View your personal information.

Language: (2) Change the application's language preferences. Tapping this option takes you to the language settings screen.

Contact Us: (3) Navigate to the "Contact Us" section for support or to report issues.

Awareness material: (4) Contains a document describing the 'procedures for VAT Refund on newly built residences by UAE nationals'

Service card: (5) View detailed information about the application's services.

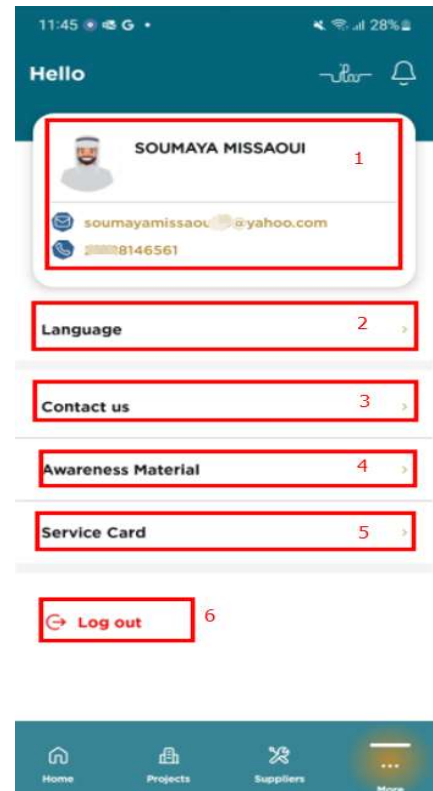

Log out: (6) Log out of the application. Selecting this option returns you to the login screen.

3. Select and Navigate:

Tap any menu item to access the corresponding screen or functionality. The "More" menu remains accessible for further navigation or returning to the previous screen.

4. Return to more menu:

The "More Menu" remains accessible for you to choose other options or return to the previous screen as needed.

USER INFORMATION

1. Access User information:

Navigate to the "More" menu from the navigation bar.

2. View User information:

Your personal information will be displayed:

Emirates ID photo (1)

Full name (2)

Email address (3)

Mobile number (4)

CHANGE APP LANGUAGE

Start by navigating to the "Language" option, which you'll find in the "More" Menu from the navigation bar.

1. On the language selection screen, you'll see a list of available languages, like "English" and "العربية".
2. Tap on the language you prefer, such as "English" or "العربية" and click on "Save changes" (1)
3. Once you validate your selection, the app will immediately switch to that language, updating everything from menus to labels and content.
4. From now on, you'll experience the app in your selected language.

If you choose "English" while the app is already in English (or "العربية" while it's already in Arabic), nothing will change, and the app will continue in the same language.

If you click on the 'Back' button (2) you will be redirected to the 'More' page and the application language will not change.

CONTACT US

1. Navigating to "Contact us":

Ensure you are logged in to the application.

Navigate to the more menu by tapping the "More" icon on the navigation bar.

Select the "Contact Us" option from the More menu.

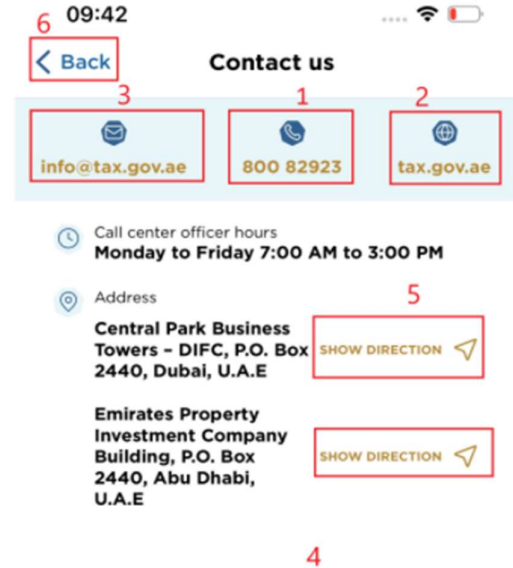

2. Viewing contact details:

The "Contact us" screen is displayed, providing essential contact information for the Federal Tax Authority (FTA). The information includes:

Phone number : (1) Contact phone numbers for reaching out to the FTA.

Email Addresses: (3) Email addresses for official correspondence.

Official Website Link: (2) A link to the FTA's official website for more information.

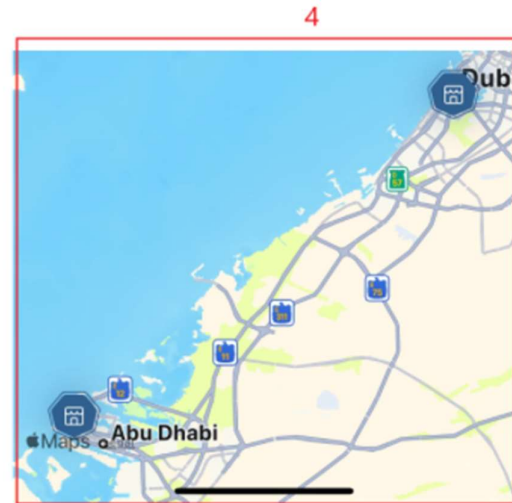

3. Viewing Location on Map: (4)

The screen also includes a map interface showing the precise location of the FTA's headquarters. Users can interact with the map by:

Zooming in and out to get a detailed view.

Clicking on "Show Direction" to pin the map to the selected location.

As the FTA has two locations, selecting "Show Direction" (5) will pin the map to the chosen location.

4. Using contact information:

- Users can note down the contact details for future reference or use the provided information to get in touch with the FTA.
- For navigation purposes, users can use the map to find the easiest route to the FTA's headquarters if they plan to visit in person.

If you click on the 'Back' button (6) you will be redirected to the 'More' page.

AWARNESS MATERIAL

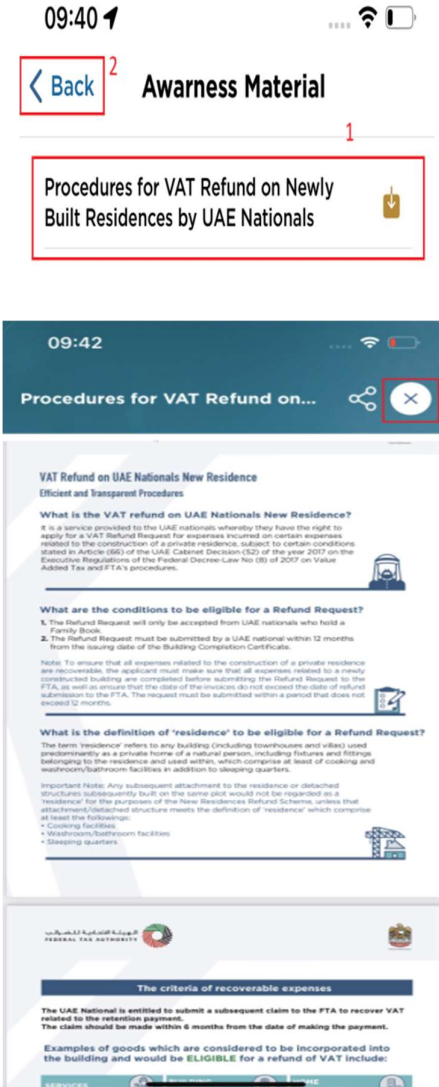

1. From the navigation bar, select the "More" menu.

2. Choose the "Awariness Material" option.

3. Click on the document name (1) to display it

4. If you click on the 'Back' button (2) you will be redirected to the 'More' page.

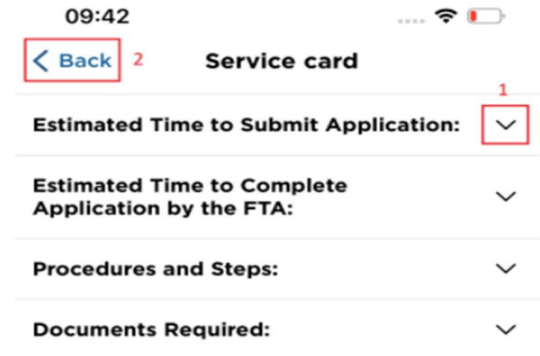

5. If you click on the 'X' button you will be redirected to the "Awariness material" page.

SERVICE CARD

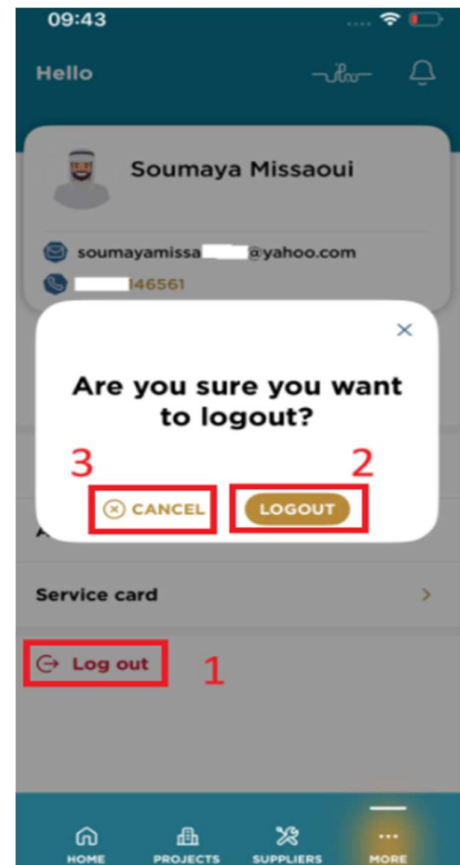

1. From the navigation bar, select the "More" menu.
2. Choose the "Service card" option.
3. The application navigates you to the "Service card" screen, which provides access to the sub-features.
4. Click on the arrow (1) to display the details of the sub-features concerned.
5. If you click on the 'Back' button (2) you will be redirected to the 'More' page.

LOG OUT

1. From the navigation bar, select the "More" menu.
2. Tap on "Log Out" (1) in the app.
3. A pop-up will appear, asking if you want to log out of your account.
4. If you tap "LOGOUT" (2) you'll be logged out of your session and redirected to the login screen.
5. If you tap "CANCEL" (3) the pop-up will disappear, and you'll stay on the "More" page.

FEATURE 4: CREATE PROJECT

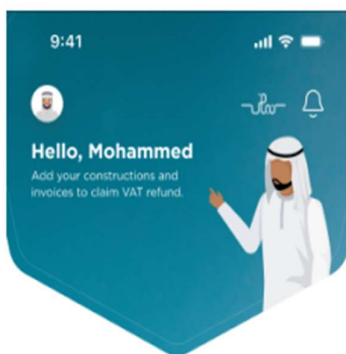

ADD NEW PROJECT

Prerequisites:

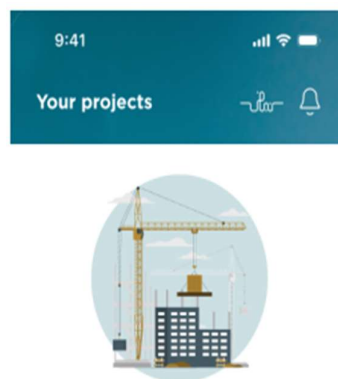

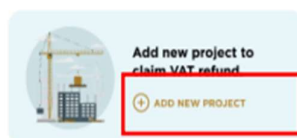

- Ensure you are logged in to the application.
- You should be on the home page or on the the "Projects" screen.

Steps to create a new project:

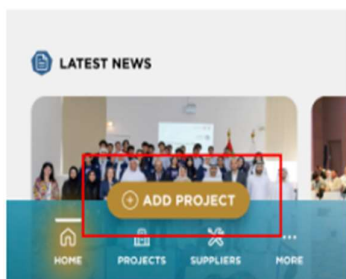

1. Initiate the project creation:
 - On the home page or the "Projects" screen, click the **"Add new project"** button.

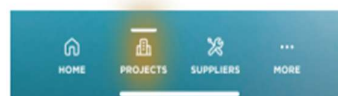

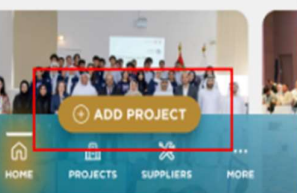

YOUR PROJECTS

Add new project
to claim VAT refund.

LATEST NEWS

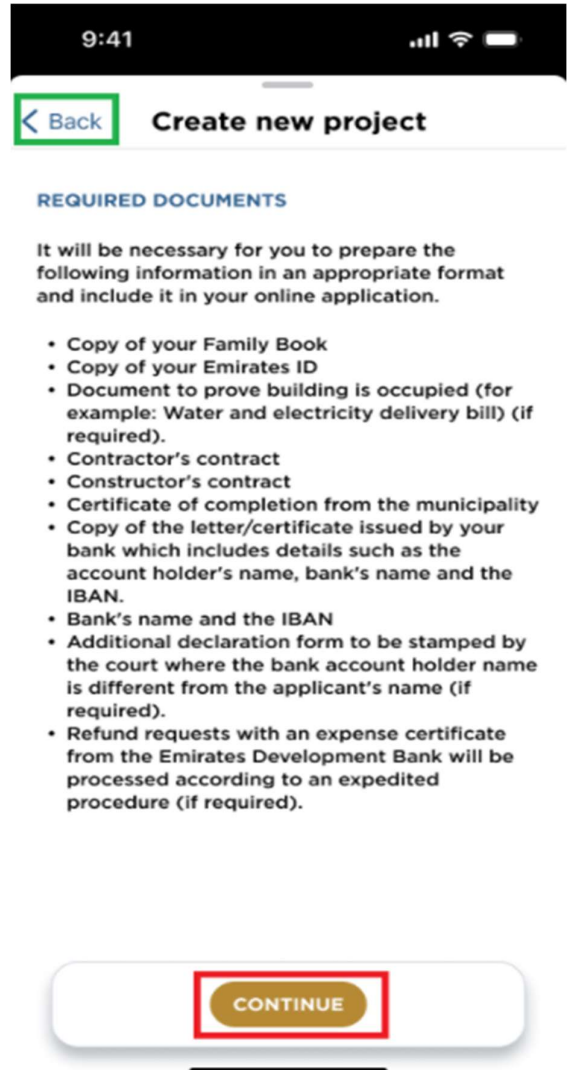

2. Required documents:

A pop-up will appear informing you about the required documents for project creation.

Click "**Continue**" to proceed.

If you decide not to create the project, click "**Back**" to exit the process.

9:41

< Back Create new project

REQUIRED DOCUMENTS

It will be necessary for you to prepare the following information in an appropriate format and include it in your online application.

- Copy of your Family Book
- Copy of your Emirates ID
- Document to prove building is occupied (for example: Water and electricity delivery bill) (if required).
- Contractor's contract
- Constructor's contract
- Certificate of completion from the municipality
- Copy of the letter/certificate issued by your bank which includes details such as the account holder's name, bank's name and the IBAN.
- Bank's name and the IBAN
- Additional declaration form to be stamped by the court where the bank account holder name is different from the applicant's name (if required).
- Refund requests with an expense certificate from the Emirates Development Bank will be processed according to an expedited procedure (if required).

CONTINUE

3. Insert data and create the project:

You will be directed to the project creation screen. Here, you need to fill in the following details:

1. Project nickname: **(1)** Enter the name of your new project.
2. Construction permit document: **(2)** Upload an image or PDF of your construction permit (Maximum size: 15MB; Supported formats: PDF, JPG, JPEG).
3. Project builder: **(3)** Indicate whether you are creating the project for yourself or on behalf of someone else.
4. Project name **(4)**
5. Owner's name **(5)**
6. Permit Number **(6)**
7. Plot number **(7)**

Once you have finished inserting the data, click the "**Create Project**" button.

9:41

< Back Create new project

PDF, JPG, JPEG are supported for upload with maximum 15 MB size. You can upload one file at a time.

CREATE PROJECT

If you decide not to create the project, click "**Back**" to exit the process:

A pop-up will appear warning you that your entered information will be lost. If you click "Leave" (1) you will be redirected to the previous page, and the information will be lost. If you click "Stay" (2) the pop-up will disappear, and you will remain on the same page.

4. Validation and project creation:

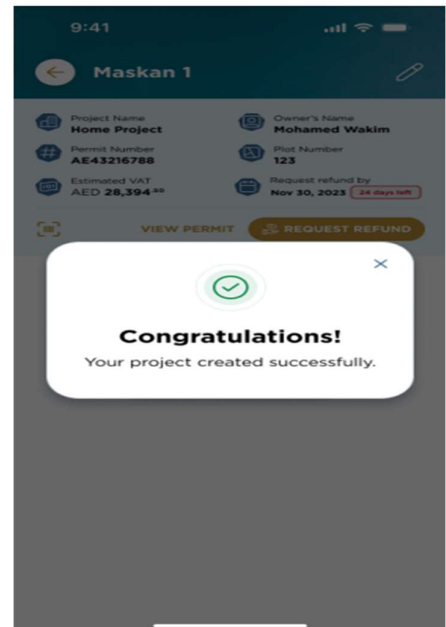

The application will validate your input data.

- If any issues are found, an error message will appear under the corresponding field(s).

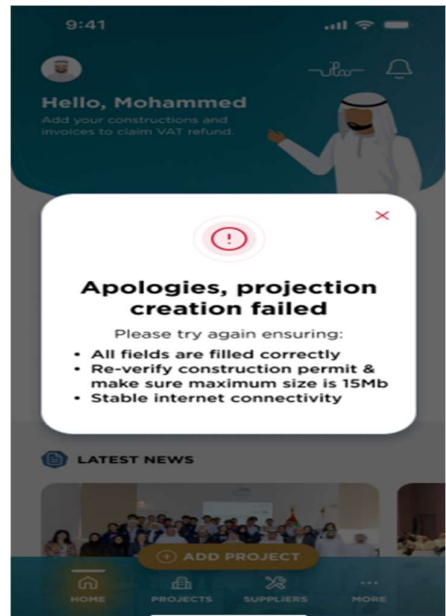

5. Final outcome:

If the project is created successfully, a success pop-up will be displayed and you will be redirected to the project screen, and a new project card will be added to your home page and project list:

If the project creation fails, a Pop-up will be displayed, and you may need to try again later.

PROJECT DETAILS SCREEN

1. Navigate to Project Details Screen:

After successfully creating a new project, you are directed to the "Project Details" screen.

2. View project information (1):

The "Project Details" screen displays the following information:

- Project title
- Project Name
- Owner's Name
- Permit Number
- Plot Number
- Estimated VAT Value (based on added invoices)
- A barcode icon to preview the barcode generated for the project. (a)
- A link to view the permit. (b)

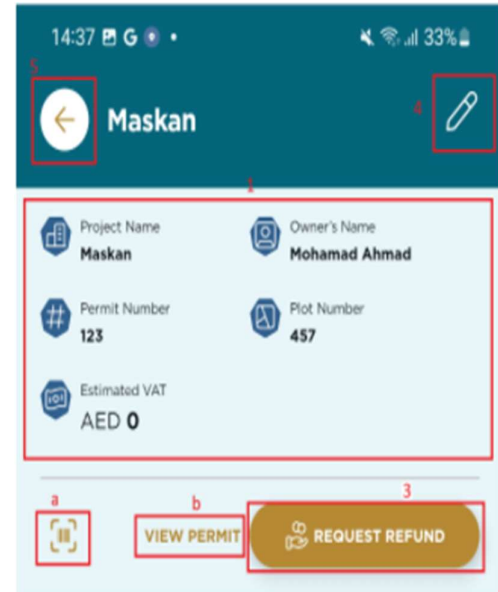

3. Add New Invoice: (2)

Initially, there are no invoices added to the project.

A button labeled "Add New Invoice" is displayed, allowing you to add invoices.

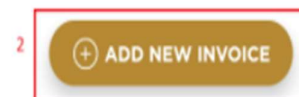

4. Request Refund (3) :

You can click on the "Request Refund" button to access the request documents section.

No invoices added.

Take a photo or upload document to add invoice or share barcode with supplier so that they can raise invoice.

5. If you click on the pen icon (4) , another page will be displayed, giving you the option of modifying your project data.

6. If you click on the back arrow (5) you will be redirected to the previous page.

REFUND REQUEST SCREEN

1. Navigate to the Refund Request Screen:

You'll be directed to the "Refund Request" screen, which is divided into six sections, each representing a different phase of the refund request.

2. Track your progress: (1)

The screen features a progress bar that shows how much of the process you've completed. Each time you finish a phase, the progress bar increases by 20%. When all phases are complete, it will reach 100%.

3. Provide information in each phase: (2)

Move through each phase and provide the required information:

- **Phase 1:** Applicant Details
- **Phase 2:** Claim Details
- **Phase 3:** Property Details
- **Phase 4:** Refund Details
- **Phase 5:** Bank Details

4. Complete each phase:

After you complete a phase, that part of the progress bar will fill up.

5. Review and edit details:

You can navigate between phases to review or edit any details before you submit your request.

6. Submit the request: (3)

REFUND DOCS – EXPENSE DETAILS SECTION

1. Access the Expense Details Section:

Click to access the "Expense Details" section in the Refund request screen.

2. View and Enter Details:

- You'll see the following elements:

"Total Calculated VAT": (1) This is automatically calculated based on the list of invoices under the project and cannot be edited.

"Total Claimed VAT": (2) Enter the amount you're claiming in this input field. The value must be greater than 0.

VAT refund plan question: (3) Answer "Yes" or "No" to the question: "Are you planning to apply for a VAT refund in relation to retention payment of the same property later?"

"Comments (Optional)": (4) You can optionally enter comments here, with a maximum character limit of 1,000.

3. Save changes: (5)

Click the "Save" button to save your inputs.

The screenshot shows the 'Expense details' form with the following elements:

- 6 Expense details**: The title of the section, with a 'Back' button to the left.
- 1**: 'Total calculated VAT' field showing AED 80,000.00.
- 2**: 'Total claimed VAT' field showing AED 500,000.00.
- 3**: A question 'Are you planning to apply for a VAT refund in relation to retention payments of the same property later?' with 'Yes' (selected) and 'No' radio buttons.
- 4**: 'Comments (optional)' text area with a character count of 0/1000.
- 5**: A 'SAVE CHANGES' button with a checkmark icon.

Handling Invalid Data Entry

If you enter invalid data, an error message will appear beneath the affected field to guide you in correcting your input

Total calculated VAT

really want to leave?

EDIT PROJECT

1. Access the edit project: From the project details screen, click on the "Edit" button.

2. Modify project details:

You can edit all the project details, including the project name and construction permit information.

If needed, delete the existing permit by clicking on the delete icon (1) and upload a new one.

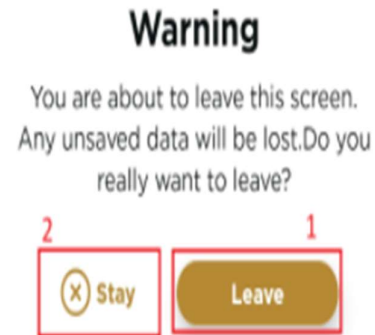

3. Save changes:

Click the "Save changes" button (2) to save your modifications and be redirected to the 'Project details' page where updated information will be displayed.

Cancel edit:

If you click the "Back" button a pop-up will appear warning you that your unsaved data will be lost. If you click "Leave" (1) you will be redirected to the "Project details" page, and the edited information will be lost. If you click "Stay" (2) the pop-up will disappear, and you will remain on the "Edit project" page.

Error Handling:

If there are any issues with the update (e.g., mandatory empty field), you'll see appropriate error messages, and you'll be prompted to correct the issues.

LIST OF INVOICES

1.Navigate to the invoices tab:

The user navigates to the "Invoices" tab within the project details screen.

2.Check for existing invoices:

The system checks if the list of invoices is empty:

No Invoices Found:

If the list of invoices is empty, the screen displays a message: 'No invoices added' and gives you the option of starting the procedure for adding a new invoice by clicking on 'Add new invoice'.

No invoices added.

Take a photo or upload document to add invoice or share barcode with supplier so that they can raise invoice.

 ADD NEW INVOICE

There is at least one invoice:

1. Display List of Invoices:

The system displays the list of invoices.

Each invoice in the list is clickable and displays the following details:

Adnan Safarini

#12345678 • Jan 16, 2023

AED 55,000⁰⁰

VAT AED 5,500⁰⁰

- Date of invoice
- Supplier's name
- VAT value

Clicking on an invoice opens the details screen for that invoice.

Invoice Details Screen:

From the details screen, the user can:

Preview the attached invoice.

Edit the invoice details (only for manually added invoices). (1)

Delete the invoice (a confirmation popup is displayed when the user attempts to delete an invoice). (2)

Icon Differentiation: (3)

Each invoice in the list has an icon to indicate whether it was added manually or by the supplier.

Edit/Delete Restrictions:

Only invoices added manually are eligible for edit/delete actions.

If the user accesses the details of an invoice added by a supplier, the edit and delete actions will not be available.

If you click “Back” button, you will be redirected to the “Project detail” screen.

EDIT

Edit invoice:

1. Click on the Edit button on the invoice details page to start editing the invoice.

2. Modify the information in the fields concerned

3. Click on 'Confirm' (1) to save the modification.

A success pop will be displayed to confirm that the modification was successful. The modified information will be displayed in the details of the invoice concerned.

4. If you want to cancel the invoice modification, click on 'Cancel' or on the 'Back' button: a pop-up will appear warning you that your unsaved information will be lost. If you click "Leave" (1) you will be redirected to the "Invoice details" page, and the information will be lost. If you click "Stay" (2) the pop-up will disappear, and you will remain on the "Edit invoice" page.

Warning

You are about to leave this screen.
Any unsaved data will be lost. Do you really want to leave?

Alternative flows:

Scenario 1: User searches for invoices (1)

If the user enters a search query, the system filters the list to display only relevant invoices matching the search criteria.

The user can search based on three parameters:

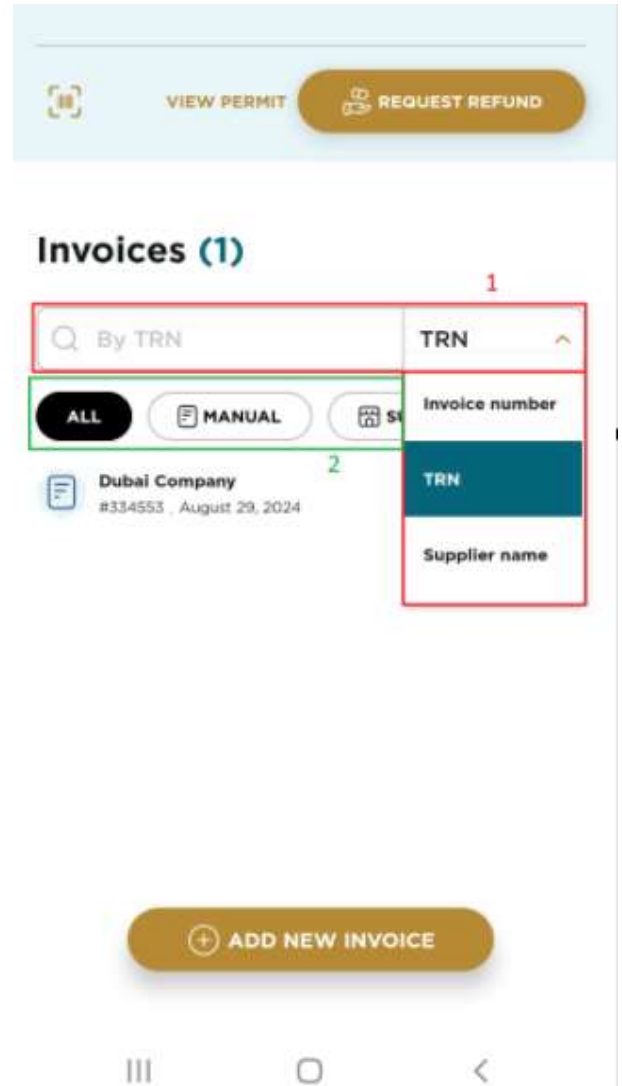

- TRN number
- Invoice number
- Supplier name

User filters invoices (2)

If the user selects the "Manual" filter, the system displays only manually added invoices.

If the user selects the "Supplier" filter, the system displays only supplier-added invoices.

If the user selects the "All" filter, the system displays all invoices.

ADD INVOICE

MAIN FLOW:

1. Click "Add new invoice":

Start by clicking the "Add new invoice" button

within the "List of Invoices."

2. Choose how to add an invoice:

You'll be given three options:

-  **Take a photo**
-  **Upload file** PDF, DOC • Max. 1 MB
-  **Upload image** PNG, JPG • Max. 1 MB

 **CLOSE**

- Take a photo using your device's camera.
- Upload a photo from your device's storage.
- Upload a file from your device storage

Click on 'Close' if you want to cancel the addition of the invoice.

3. Upload document

Once you have selected the document to download, the download begins

4. Automatic information extraction : Once you upload a document, the application will automatically perform Optical Character Recognition (OCR) to extract the following fields:

- Invoice type (1)
- TRN (2)
- Company name (3)
- Invoice number (4)
- Invoice date (5)
- Total amount (6)
- VAT (7)
- Customer name (8)
- Comments (optional) (9)

3. Review extracted information :

The extracted fields will be presented to you for review, and you can edit any of these fields if needed.

4. Attach payment receipt (Optional): (12)

You have the option to attach a payment receipt copy.

5. Supplier TRN validation :

The system will check the Supplier TRN:

- If the TRN is valid, you can proceed.
- If the TRN is invalid, an error message will be displayed.

7. You can make edits and corrections:

If necessary, make any edits or corrections to the information.

9:41

Add new invoice

Please review your invoice details. You have the flexibility to make modifications or delete the invoice even after it has been added.

8. Confirm:

Click the "Confirm" button (10) to save the invoice to the list.
A Pop-up will be displayed:

9. Review the uploaded invoice:

Take a moment to review the uploaded invoice to ensure all details are accurate.

Handling credit notes:

If the invoice type is a credit note, the amount will be processed as a negative value.

Cancel adding an invoice

If you decide not to proceed, you can cancel the invoice adding process, which will discard any entered data. Click on 'Cancel' button: a pop-up will appear warning you that your unsaved information will be lost. If you click "Leave" (1) you will be redirected to the "Project details" page (or "Your projects" page, it depends on which page you started the procedure for adding an invoice), and the information will be lost. If you click "Stay" (2) the pop-up will disappear, and you will remain on the "Add new invoice" page.

Manual addition:

If the data cannot be extracted from the downloaded document, a pop-up will appear to inform you and give you the option of adding your invoice manually.

1. Click on 'Add invoice manually' to be taken to the 'Add new invoice' page to fill in the fields manually.

2. Continue the procedure as described in the section above (Automatic information extraction).

SUPPORT DOCS SECTION

1. Attach a document :

Click the "Scan" (1) or "Upload file" (2) or "Upload image" (3) button to add a document that supports your request or justifies a delay.

2. Choose How to Attach a Document:

If you choose to scan: Your device's camera will activate. Capture a photo of the document.

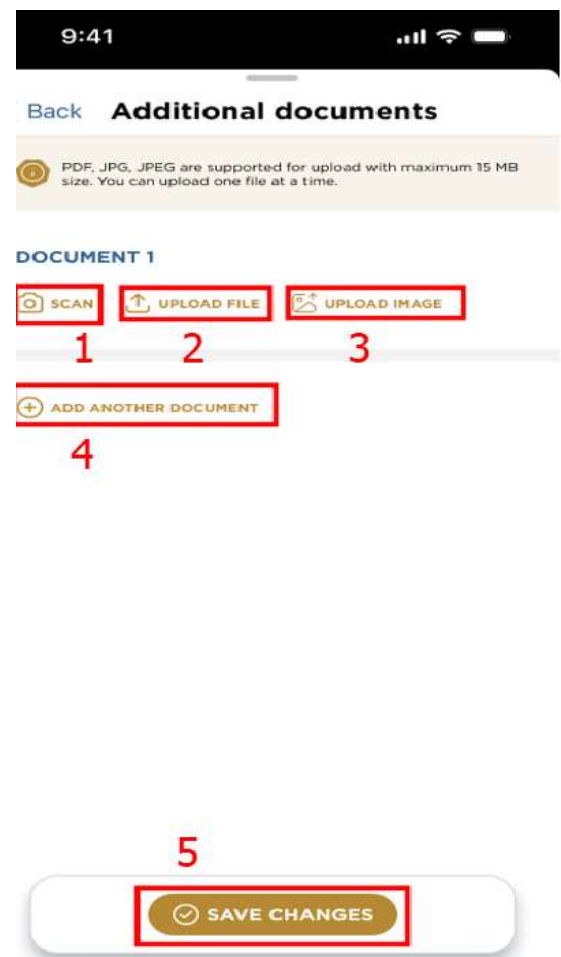

If you choose to upload: You'll be prompted to select a document from your device's storage (the document size must not exceed 15Mb).

2. Document attachment:

Once you select a photo or document, it will be attached to the project.

3. Save changes: (5)

Click on "Save changes" button to confirm that the document has been added. You will be redirected to the 'Refund request' screen.

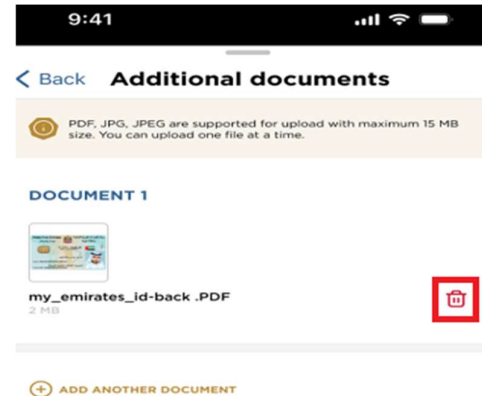

ALTERNATIVE FLOW:

- Delete Documents:

You have the option to delete any attached document, if it's no longer needed, by clicking on the delete icon

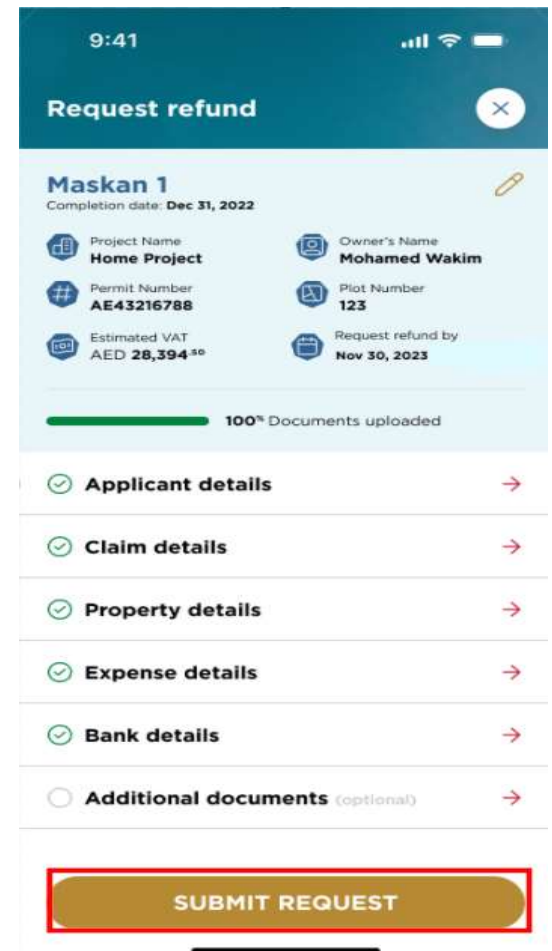

SUBMIT REFUND REQUEST AND SUMMARY SCREEN

1. Complete all details:

Ensure all required details for the VAT refund request are filled out.

2. Proceed to submit:

Once all required information is provided, click to submit your request.

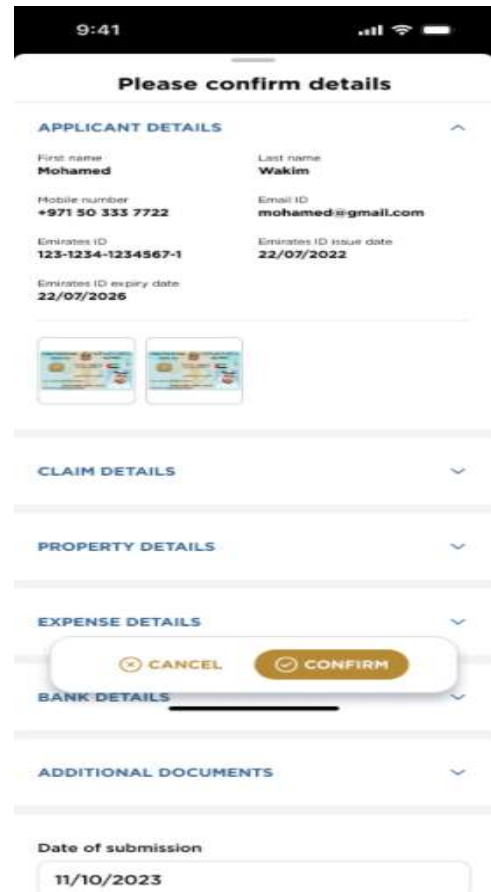

4. Review summary screen :

After submission, you will be directed to a summary screen where you can review all the entered details.

5. Confirm details:

The summary screen will show a recap of the data you entered. Review it carefully.

CANCEL CONFIRM

6. Agree to terms:

Confirm your agreement with the terms and conditions to proceed.

Date of submission

15/08/2024

☐ By confirming, I agree that

- I am the owner (a UAE national) and all this information in this form is correct, and that the new residence for which the new residence VAT refund has been requested will be used exclusively by myself or my family members

7. Click on “Confirm” to submit your request.

8. Final steps:

If successful, your refund request is officially submitted. If there are issues, you will be prompted to correct them and try again.

Alternative flow:

1. If you click on “Cancel”, your request will not be sent and you will be redirected to the ‘Request refund’ screen.
2. If you click on ‘Confirm’ before agreeing to the conditions, a pop-up will appear asking you to agree to the conditions, and your request will not be submitted.

SUBMISSION RESULT

1. Initiate submission:

You start the submission process for your VAT refund request.

2. Data processing:

The application sends your refund request data to the backend system for processing.

3. Successful processing:

The backend system successfully processes your request.

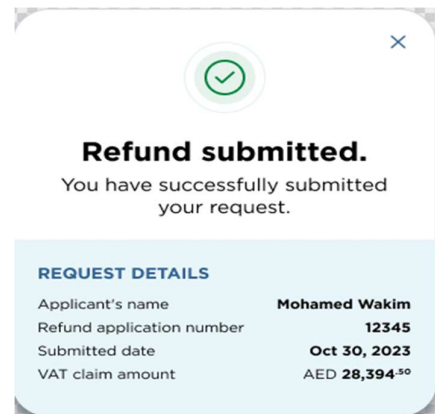

4. View success screen:

You are directed to the "Successful Submission" screen.

5. Review details:

On this screen, you can view:

- Your Name
- Refund Application Number
- Submission Date
- Requested VAT Claimed Amount

6. **Confirmation:**

You are informed that your VAT refund request has been successfully submitted.

Error Handling Scenario:

1. **Initiate Submission:** You start the submission process for your VAT refund request.
2. **Error Occurs:** An error occurs during the submission process, such as a network issue or backend system error.
3. **View Error Screen:** The application displays an "Error" screen to you.
4. **Receive Guidance:** You are notified of the issue and provided with guidance on how to proceed.
5. **Data Retained:** Your data, including the VAT refund request details, is preserved so you can attempt the submission again later.

PROJECT BARCODE

1. Access Barcode:

From the main menu, go to the "Project Details" screen by selecting the relevant project you wish to manage and click on the "Barcode" icon within the project details screen.

2. View Barcode:

The application displays the project's unique barcode (1) and the project ID as text (2), generated by the system.

3. Share Barcode: (3)

Choose to share the barcode using apps installed on your device, such as email, messaging apps, or cloud storage. Sharing the barcode as an image is the primary option.

4. Provide to Suppliers:

Show or send the barcode to your integrated suppliers. They can use this barcode to generate invoices that will be automatically associated with your project.

5. Click "Back" (4) to return to the 'Project details' screen.

PROJECT STATUS DETAILS

You can see the status of the project in the Project card or in the 'Project details' page.

Below are some examples of the project's status:

1. Draft Status:

- In "Draft" status, you can edit project details and add or update documents.
- Interactions are allowed until the project is submitted.
- You can access the refund request documents and edit information in the sections. (2)
- You are allowed to upload invoices. (1)

2. Submitted status:

- If the project has been submitted, its status is "Submitted."
- In the "Project Details" screen for a "Submitted" project, all details are view-only.
- No edits or document updates are permitted at this stage.

3. Checking_eligibility status:

- Projects with a status of "Checking_eligibility" are currently being evaluated.
- In the "Project Details" screen, all information is view-only.
- Editing and adding documents are not allowed for projects in this status.

4. Resubmit status :

- If the project is in the "Resubmit" status, specific information is missing from the refund request.
- You can access comments from the FTA regarding the request. Click on the comment icon (1) to view the comment on a separate screen.
